— Rewarding

## **CardBook® Cardholders:**

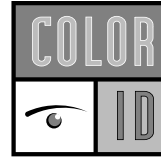

The **William Exline CardBook®** doubles as an ID card holder as well as a personalized mini information book that fits in your wallet. There are dozens of applications for the CardBook cardholder. You can create Campus Card orientation books or Season-Pass cardholders with rules, regulations and informative maps. The cardholders are also used as a reference for your company's policy information.

The CardBook® can also be a significant source of revenue by including coupons and advertising. We can help guide you towards your very own CardBook® that will allow you to have an assortment of valuable information, such as:

- **Campus or resort maps** (including fold out maps)
- **Coupons to local shops & eateries** (including perforated coupons)
- **Calendar of Events**
- **Important company information and policies**
- **List of contact and emergency phone numbers**
