

Print Edge-to-Edge Full Color Cards in One Step

Introducing Zebra's ZC10L Large-Format Direct-to-Card Printer

Zebra's ZC10L is the only large-format, direct-to-card printer that produces full, edge-to-edge color cards in one printing process. There's no need to order partially printed ID cards or badges in advance. Print what you need on demand, with no waste and no leftover cards.

- Full edge-to-edge card printing in one step
- Avoid the hassle of ordering pre-printed cards
- Create beautiful cards with images, graphics, text and barcodes
- Stunning 300 dpi image and graphics quality
- Print cards on demand with less cost and less waste

Large Cards for Easy Reading

Zebra's ZC10L printer produces large 3.5" x 5.5" passes and badges that are easy to see and read from a distance. It's great for branding and increased event security, allowing event staff to identify guests and determine access permission at a distance.

Custom Card Design Flexibility

Create visually compelling PVC cards with high quality designs using Zebra's CardStudio design software. You can create full-size card designs without needing to measure card sections for template design or printing.

With the ZC10L's flexible, on-demand printing, you can even make card design changes right up to the time of your event. You can include sponsor logos, corporate advertising, and take guest photos at the point of entry to further personalize cards and create guest mementos.

Custom and Efficient Supply Kits

Supply kits sold exclusively for the ZC10L feature 400 cards and ribbon rolls to match, so your supplies are synchronized beautifully. No leftover stock or mismatched supplies. You can also order Zebra's monochrome black ribbon for custom backsides of cards with "fine print" details.

Zebra's PVC cards, designed specifically for the ZC10L, deliver outstanding durability and print quality. With Zebra supplies, you also get consistent results with every print job, plus minimum wear and tear on critical printer parts, for lower overall maintenance costs.

Easy Printer Maintenance with Zebra OneCare

Zebra also makes it easy to increase your printer's uptime, minimize potential repair costs, and simplify your printer servicing and maintenance with a Zebra OneCare™ service agreement. There are a variety of plans to fit your budget and needs, and Zebra trained technicians will handle all the work to ensure your printer meets all factory specifications.
