

take the headache
out of
ID headshots

let AI & the
cardholder do
the work for you

with over 300 satisfied customers, find out how cloudcard can help you simplify, secure, standardize, & save you money with your online photo submission process.

features:

- AI photo processing
- background removal
- facial comparison
- photo continuity assurance
- reporting dashboard
- fully cloud-based
- numerous integration options
- automated email communications
- no software to install or maintain
- single sign-on (SSO)
- device friendly solution
- optical character recognition (OCR)
- full-service support

how it works:

2) the cardholder uploads their photo via the secure link

1) an automated email is sent to the cardholder

3) AI crops, rotates, removes backgrounds, approves or denies the photo

4) once approved, the cardholder is notified & the photo is automatically downloaded

5) relax knowing you've saved time & money!

eliminate:

- costly workflow disruptions
- daunting rebadges
- stressful turnarounds
- time-consuming photo processing
- security risks & non-compliance issues
- expensive setups
- unhappy staff & stakeholders
