## COLORID OVERSIZED CREDENTIALS

### ZEBRA ZC10L BADGE PRINTER

The Zebra ZC10L is the only large-format, direct-to-card printer (dye sublimation printing) that can produce full, edge-to-edge color cards in one printing process. Utilizing a single print head this unit is more similar to most PVC card printers in the industry.

The ZC10L printer produces large passes and badges that are approximately 3.5" x 5.5" (88 mm x 140 mm)—making printed content and images easier to see and read. The ZC10L is so flexible that you could make card design changes right up to the time of the event. Include sponsor logos, incorporate advertising, and take guest photos at the point of entry to further personalize cards and create guest mementos.

### COMPETITIVE ADVANTAGE:

*Compact printer allows for quick transport to multiple locations and has available customizable rigid case.*

ALLOWING YOU TO PRINT ON  
DEMAND LARGE FORMAT  
CREDENTIALS FOR ANY EVENT

### DYE SUBLIMATION & MOBILE SOLUTION

# SWIFTCOLOR SCC-4000D BADGE PRINTER

The SwiftColor SCC-4000D printer features single pass print-head technology and prints in high resolution 1200 dpi. This unit specializes in high speed printing (prints a 3.5" x 5.5" full color card in 2 seconds) and is a perfect fit for printing oversize badges for tradeshow, large events, concerts, music festivals, racing, golf, major sports and stadium special events, parking passes, door hangers, tradeshow, media credentials, college/university, educational summits and seminars, and more.

The SwiftColor prints via inkjet method and the printer contains 4 separate printheads, one for each color (CYAN, YELLOW, MAGENTA & BLACK). Utilizing paper or PVC cards these cards are unique because of a special ink receptive layer, the cards have been tested and pair with single pass print head technology for a perfect print. If you require additional security features such as UV hot stamp, UHF, and holograms those are available via special order.

## INKJET PRINTING

## COMPETITIVE ADVANTAGE:

*The SwiftColor printer allows for a wide range of card sizes from as small as 3.35 in x 1.9 in, up to 4.7 in x 11.81 in*
