## Meet Verkada Guest

---

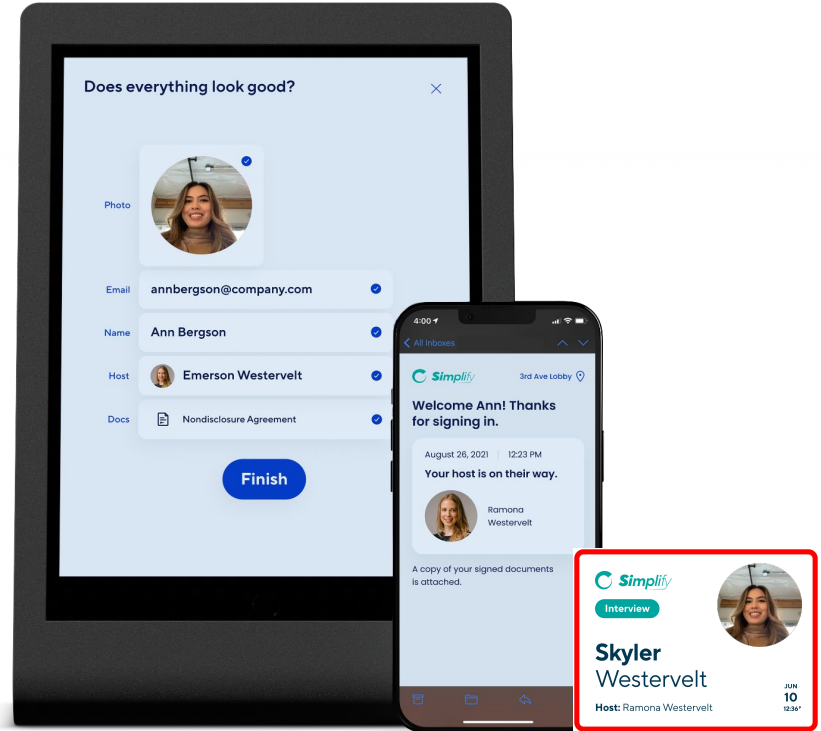

Welcome guests with Verkada's visitor management system that integrates seamlessly with video security and access control.

## Discussion Questions

- How many visitors do you usually have in a given week?
- What types of visitors do you normally have? (e.g. interviews, contractors)
- How do you check in visitors today?
- Does your current check-in method help increase security in your building?
- How do you know if someone trying to check in should not be allowed in?

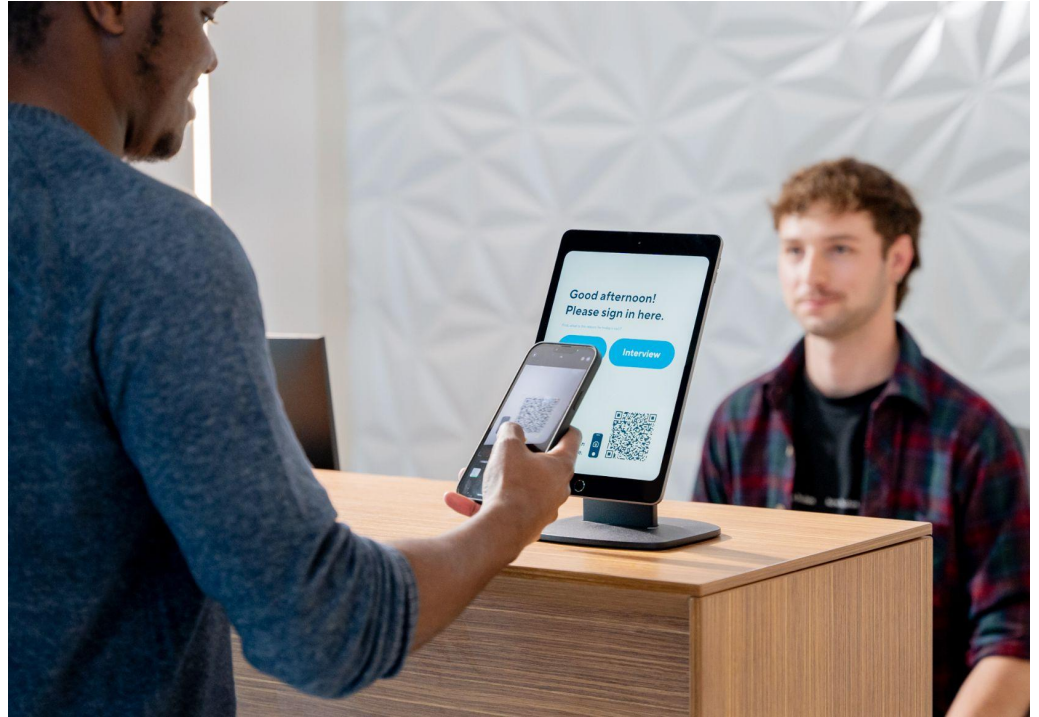

## Make Visitors Feel Welcome

---

Provide visitors with a smooth check-in experience and positive first impression.

- **Simple, guided sign-in** based on guest type
- **QR codes** for fast, touchless check-in
- **Tablet call button** if a visitor needs to call for assistance
- **Send pre-arrival information** so guests feel prepared when they arrive

## Increase Safety and Security

Increase visibility and control with a fully integrated physical security ecosystem.

- **Run immediate background checks** for some or all guest types
- **Color-coded badges** make it easy to identify visitor types at-a-glance
- **Integrated cameras** let you monitor visitors throughout your building in case there's an incident
- **Person of Interest alerts and auto-deny lists** help receptionists quickly take appropriate action

The screenshot displays the Verkada web interface for a building named 'Claremont St Lobby #1'. The interface is divided into several sections:

- Left Sidebar:** Shows a list of 4 doors: Bike Room Door, Garage Arm, Garage Door, and Claremont Exterior. At the bottom, a summary for 'Today' shows 109 Guests and 64 Hosts.
- Top Navigation:** Includes 'Guest Log' and 'Analytics' tabs, and an 'Export' button.
- Camera Feeds:** Two live video feeds are shown. The left feed is labeled 'Front Lobby' and shows a person with a dog. The right feed is labeled 'Claremont St Exterior' and shows a person walking on a sidewalk.
- Guest Log Table:** A table listing guest entries with columns for Guest, Via, Reason, Host, Docs, In, Out, and actions (Sign Out, Print Badge, and a trash icon).

Guest	Via	Reason	Host	Docs	In	Out	Actions
Cristofer Gouse	📱	Visitor	Cheyenne Rosser	-	12:32 PM	Sign Out	Print Badge
Jakob Ekstrom Bothman	🔑	Visitor	Alfonso Dias	✓	12:32 PM	Sign Out	Print Badge
Adison Mango	📱	Interview	Emery Passaquindici Arcand	✓	12:32 PM	Sign Out	Print Badge
Craig Calzoni	📱	Visitor	Madelyn Aminoff	-	12:32 PM	Sign Out	Print Badge
Omar Korsgaard	🔑	Interview	Randy Lubin	✓	12:32 PM	Sign Out	Print Badge

## Make Front Desk Staff More Efficient

---

Simple yet powerful workflows free up time for receptionists to focus on other tasks.

- **Hosts get automatically notified** when their guest has arrived
- **Guided sign-in** lets visitors check in, even if a receptionist is not present
- **Remotely unlock doors** to let visitors go where they need to
- **Use visitor analytics** to help evaluate staffing needs

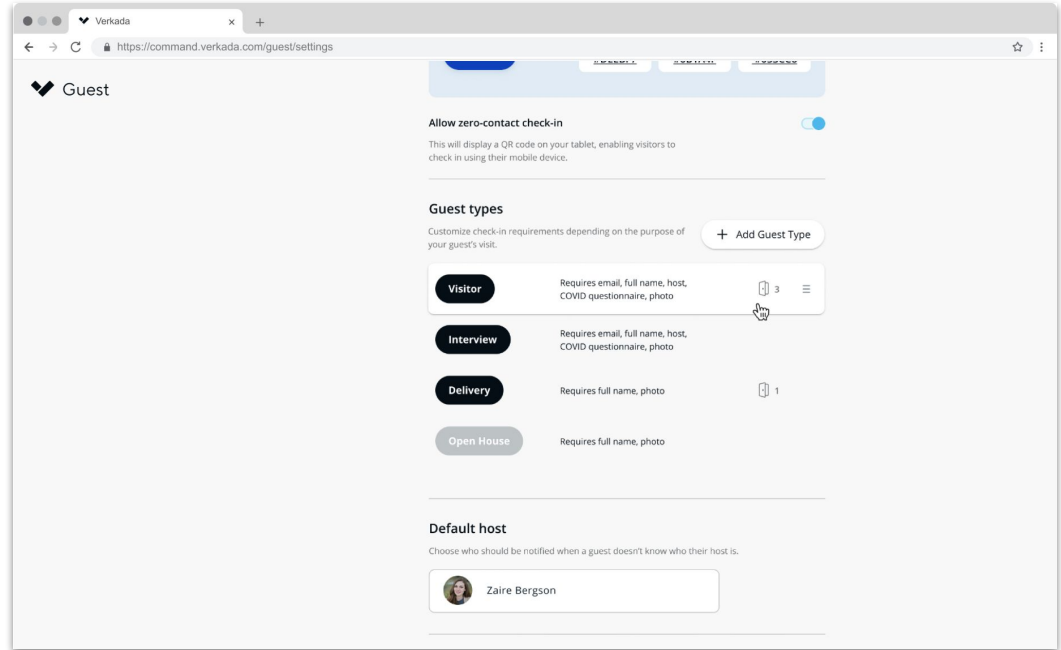

## Set Up and Customize in Minutes

Verkada Guest is easy to set up and tailor to your organization's needs.

- **Use plug-and-play templates** or create your own tailored guest flows
- **Upload specific documents** for visitors to sign when they arrive
- **Give the right people access** with granular role-based permissions
- **Get started with minimal hardware** – just an iPad and printer
