

SigLite 1x5

# T-S460

The Topaz® SigLite® 1x5 is a small, pressure-sensitive, low-cost electronic signature pad. It features all the high quality biometric and forensic capture techniques of a SignatureGem® 1x5 signature pad but with a touchpad and stylus in place of the active electromagnetic pen and sensor, making it both space-saving and cost-efficient.

The touchpad sensor (protected by an optional replaceable overlay for longer life) reads the digital, binary pressure of the stylus tip and transmits signature data to the computer at high speed for an easy, accurate electronic signature.

The SigLite 1x5 shows the signature on the computer screen only.
