WHY COLORID?

Every year, ColorID helps Fortune 500 companies, government agencies, hospitals and more than 1400 universities find the right solutions for their identification technologies, card personalization, biometrics and transaction management requirements. We have 18 years of experience integrating these solutions to unique ecosystems of transactions, access control systems, databases and software. Let us help you create your identity roadmap!

ColorID project managers personally oversee more than 800 custom projects each year, including many technology card projects. We provide lifetime support for all the cards, hardware and software that we sell. Our CHOICE Support Program includes best in class technicians who know that ID card offices issuing badges need prompt answers to their questions and swift solutions to their problems.

ColorID offers best-in-class products and solutions, including: contactless, smart and financial cards from every major manufacturer; multiple ID printer platforms; transaction and point-of-sale software and hardware; a variety of handheld devices for identification and tracking applications; and biometrics solutions, including fingerprint and iris readers.
